DETAILED ACTION

Applicant's amendment filed 3-19-03 Paper No. 13 is acknowledged and has been entered.

Oath/Declaration

The objection to the oath has been withdrawn.

Abstract

In view of Applicant's new Abstract, the objection to the Abstract has been withdrawn.

Information Disclosure Statement

The supplemental IDS filed 3-18-03 (Paper No. 13) has been considered.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

MAINTAINED Claims 27, 34 and 38 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent No. 5,194,425.

Applicant traverses the rejection on the grounds that the reference fails to teach that the MHC component must be attached to the carboxyl terminus of the antibody. Applicant further asserts that it is possible that the MHC component is attached to the amino terminus of the antibody, with which the Examiner agrees. The examiner further notes that '425 teaches both configurations as evidenced by Formulas I and II of said patent. Therefore, though Applicant's

Art Unit: 1644

arguments have been carefully considered, they are not persuasive and the rejection is maintained, essentially for the reasons of record.

Conclusion

Claims 28-33, 35-37 and 39 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
